Start studying Unit III - Sense Organs (Ch 16) - 2. Learn vocabulary, terms, and more with flashcards, games, and other study tools.

Unit III - Sense Organs (Ch 16) - 2 Questions and Study ...

The heart is a muscular organ about the size of a closed fist that functions as the body's circulatory pump. It takes in deoxygenated blood through the veins and delivers it to the lungs for oxygenation before pumping it into the various arteries (which provide oxygen and nutrients to body tissues by transporting the blood throughout the body).
