The role of crystal diversity in understanding mass transfer in nanoporous materials. Nanoporous materials find widespread applications in our society: from drug delivery to environmentally friendly catalysis and separation technologies.

### **Department of Chemical Engineering**

Chemical engineering provides students with real-world experience through laboratory classes, hands-on operation of pilot scale equipment, and research projects that result in clean energy production and medical applications.

Puff and Pass provides a listing of the latest information about bursaries and internships for undergraduate students in South Africa.

### **Chemical Engineering - Puff and Pass**

Welcome to the Chemical Engineering Department of the King Fahd University of Petroleum & Minerals here in Dhahran, Saudi Arabia. The Department is one of the largest of its kind in Saudi Arabia, providing a broad range of educational and research opportunities.

### **Chemical Engineering**

The Department of Chemical Engineering is a leader in chemical engineering education and technology and we stand tall amongst Chemical Engineering Departments at the Universities of Technology in South Africa.

### **Chemical Engineering - CPUT**

Where Chemical and Environmental Engineering Converge. On-the-job learning and hot research topics - like biofuels, aerosols, waste remediation and semiconductor manufacturing - draw students from near and far to UA chemical and environmental engineering - and keep them there.

Degree Offered. Bachelor of Science in Chemical Engineering (B.S.Ch.E.) Nature of Program. The chemical engineering curriculum is designed to give graduates a broad background in chemical engineering processes and to prepare them to become practicing engineers.

### **Chemical Engineering < West Virginia University**

In the field of engineering, a chemical engineer is a professional, who is equipped with the knowledge of chemical engineering, works principally in the chemical industry to convert basic raw materials into a variety of products, and deals with the design and operation of plants and equipment. In general, a chemical engineer is one who applies ...
