

### **Compare And Contrast The Properties**

Comparison of Properties of Ionic and Covalent Compounds. Because of the nature of ionic and covalent bonds, the materials produced by those bonds tend to have quite different macroscopic properties.

### **Comparison of Properties of Ionic and Covalent Compounds**

Compare and contrast the properties of objects in the Solar System including the Sun, planets, and moons to those of Earth, such as gravitational force, distance from the Sun, speed, movement, temperature, and atmospheric conditions.

### **SC.8.E.5.7 - Compare and contrast the properties of ...**

Contrast definition, to compare in order to show unlikeness or differences; note the opposite natures, purposes, etc., of: Contrast the political rights of Romans and Greeks. See more.

### **Contrast | Definition of Contrast at Dictionary.com**

Contrast is the difference in luminance or colour that makes an object (or its representation in an image or display) distinguishable. In visual perception of the real world, contrast is determined by the difference in the color and brightness of the object and other objects within the same field of view.
