REC Studio is an interactive decompiler. It reads a Windows, Linux, Mac OS X or raw executable file, and attempts to produce a C-like representation of the code and data used to build the executable file.

REC Studio 4 - Reverse Engineering Compiler

decompiler for Windows and Linux binary programs ... (Files are from 120 to 500 kbyte. Each file contains the REC executable, prototype files for Linux and Windows, and a 386 example executable).

REC Studio 4 - Reverse Engineering Compiler

Compiler correctness is the branch of software engineering that deals with trying to show that a compiler behaves according to its language specification.
