The story of computing at Columbia is presented chronologically. Most links are to local documents, and therefore will work as long as all the files accompanying this document are kept together.

Computing at Columbia Timeline

Isotonicity is an important requisite mainly for parenteral aqueous-based pharmaceutical preparations. In addition, ophthalmic, nasal, auricular dosage forms together with irrigations meet such a requirement.

We study the key role fish populations play in supporting fisheries and ecosystem processes. Our work includes fish life history and limiting factor analyses, predator-prey interactions and aquatic food web studies, and monitoring fisheries harvest and management trends.

Services | FISHBIO Research, Monitoring, and Conservation

In Linear Algebra over finite fields, a characteristic-dependent linear rank inequality is a linear inequality that holds by ranks of subspaces of a vector space over a finite field of determined characteristic, and does not in general hold over other characteristics.

Technical Questions and Answers Archive. The ASA Technical Questions & Answers is a free service offered to all users, but primarily intended for engineers, architects, owners and anyone else who may be specifying the shotcrete process and/or has need for a possible answer to a technical question.

American Shotcrete Association

Jerry Mathers is an American Icon whose presence undoubtedly continues to contribute to our collective consciousness. Born on June 2, 1948 in Sioux City, Iowa, he started as a child model from the age of two, and that led to his television and show business career in live television in the early 1950s.

The Last Drive In

Footnotes * Medically necessary if results of the adrenocortical profile following cosyntropin stimulation test are equivocal or for purposes of genetic counseling.
