Freakonomics Chapter 4 Summary - Course Hero

Chapter 4 of Freakonomics addresses the sudden drop in crime rates during the 1990's, and the various factors which may have caused it. Astonishingly, research shows that one of the major factors contributing to the drop in crime rates was the establishment of Roe v. Wade. Chapter 4 weighs this theory against other theories such as "tougher ...

Superfreakonomics [Speed Summary] - Brand Genetics

Chapter 4 mainly talks about the sudden drop in crime rates, many researchers thought it was “tougher gun laws,” “number of police officers per capita,” and “increased use of capital punishment.”

Chapter 4 Summary! - Freakonomics: Chapter Four."Where ...

The authors of Freakonomics determine that the decline in crime during the 1990s was a result of the legalization of abortion following Roe v. Wade. This conclusion is well backed up by the authors who first disprove many commonly accepted reasons for declining crime such as increased policing, economic development, and changing drug situations.
