school sucks - we're building a brand new experience

School Sucks

A Reuleaux triangle is a shape formed from the intersection of three circular disks, each having its center on the boundary of the other two. Its boundary is a curve of constant width, the simplest and best known such curve other than the circle itself. Constant width means that the separation of every two parallel supporting lines is the same ...

Reuleaux triangle - Wikipedia

T-FLEX CAD is a full-function software system providing mechanical design professionals with the tools they need for today's complex design challenges.
