

### **Kalpakjian Manufacturing Engineering And Technology**

Manufacturing is the production of products for use or sale using labour and machines, tools, chemical and biological processing, or formulation.

### **Manufacturing - Wikipedia**

Overview. Computer-integrated manufacturing is used in automotive, aviation, space, and ship building industries. The term "computer-integrated manufacturing" is both a method of manufacturing and the name of a computer-automated system in which individual engineering, production, marketing, and support functions of a manufacturing enterprise ...
