Maybe this is easy beans...but how do I cut a taper on a manual lathe? I do not have a taper attachment if that makes any difference. My lathe is a Clausing 100 mk3a. For example, lets say I want to cut a shaft 8" long and 1/2" in diameter from 1/2" on one end to 1/4" at the other. How can

I do this

Cutting a taper on a manual lathe question

AWS Amplify is the fastest and easiest way to build mobile applications on AWS. Amplify allows you quickly set up authentication, analytics, and offline data sync for your mobile applications with a few commands and integrate them into your application with a few lines of code.

AWS Amplify

The United States Army Air Corps (USAAC) was the aerial warfare service of the United States of America between 1926 and 1941. After World War I, as early aviation became an increasingly important part of modern warfare, a philosophical rift developed between more traditional ground-based army personnel and those who felt that aircraft were ...
