Hi. I bought a pentax digital SLR for around £600 in mid august of 2008. Yesterday it developed a fault where it would not read memory cards. After searching on the internet and on forums i find that it is a common fault which can happen at any time, and that a repair costs around £200.

### **How long can you expect something to last?**

It's been quite interesting for me to read over these old updates, and in hindsight, I was so unbelievably optimistic about getting the car on the road quickly and how, at every step of the way, I was convinced that we were "close"!
