Austrochip is an annual meeting and platform to present the latest activities in the field of microelectronics and integrated circuits in Austria and neighboring countries.

Austrochip - Workshop on Microelectronics

An integrated circuit or monolithic integrated circuit (also referred to as an IC, a chip, or a microchip) is a set of electronic circuits on one small flat piece (or "chip") of semiconductor material that is normally silicon.

Design Principles for Digital CMOS Integrated Circuits. This book is meant to apply most directly to introductory courses in circuit design, which appear during the second or third year in many engineering curricula, but it can also provide a supplement to other courses for which some knowledge of circuits is useful.
