Courseguide

One simple definition of management accounting is the provision of financial and non-financial decision-making information to managers. According to the Institute of Management Accountants (IMA): "Management accounting is a profession that involves partnering in management decision making, devising planning and performance management systems ...

Management accounting - Wikipedia

Since the mid-2000s, organizational change management and transformation have become permanent features of the business landscape. Vast new markets and labor pools have opened up, innovative technologies have put once-powerful business models on the chopping block, and capital flows and investor demand have become less predictable.

10 Principles of Leading Change Management
