Managing a project budget is crucial, of course, so you should put care and effort into how you make one, and Jennifer Bridges, PMP, is here to help. For additional support, try our free project budget template. First, Jennifer defined what a project budget in fact was, which is the total

### **How to Create & Manage a Project Budget - ProjectManager.com**

We recommend to use the naming convention 'Budget <budget category>', e.g. 'Budget Internal Hours', 'Budget Hardware' or 'Budget Travel'. Also, use the Budget Category field to indicate the budget category, as this view will group on this field so you see a nice summary of your costs against the budget, per budget type.

### **How to set up a project budget in MS Project in 3 steps?**

The Project Budget is a tool used by project managers to estimate the total cost of a project. A project budget template includes a detailed estimate of all costs that are likely to be incurred before the project is completed.

### **Project Budget - Corporate Finance Institute**

In this article, we will explore the tools and techniques used for cost budgeting in Project Management. This is a key concept for your PMP preparation. The content pertains to the Determine Budget process of the Project Cost Management knowledge area.

### **The Tools You Can Use to Create a Budget For Your Project**

Budgeting Process. The process of determining budget for a project is an activity of aggregating the cost estimates of individual activities, or a work package, to develop the total cost estimate that allows setting a formal cost baseline.

### **2. Determining Project Budget - mymanagementguide.com**

It is a non-scientific guesstimate that many project managers use and gives you a little bit of cushioning in your budget in case you need it. Add a line on your budget spreadsheet at the bottom that says 'Contingency' and specifies the percentage you used.
