Sony STR-DG520 AV Receiver Owners Manual | eBay

The Sony - STR-DG520 was selected because it had good reviews and came at a price that didn't

upset the boss of the house. The unit offers plenty of inputs to allow the user to hook the system up to a variety of sources. In use the system works well with a good bright sound without sounding shrill, there's plenty of bass on hand which makes watching blockbusters litterly blockbusting. Overall ...

The audio and video performance of the Sony STR-DH520 is more than acceptable, especially given it's price and ability to pass 3D content, decode all current audio codecs, and deliver a full seven channels of amplification. However, setup and operation are limited by the features it lacks. If you can live with only five channels, there are other choices that offer similar performance, 3D ...
