Using human urine can help us work toward a closed-loop fertility system. While not a plant-based technique per se, using their own urine is a way that veganic gardeners can cycle back the nutrients from the foods they consume, while also diverting their urine from the water system where it acts as a pollutant.

Fertilizing with human urine - [Veganic Agriculture Network]

So imagine this - the (systemic) systems around you have come to a halt. Those which most people

count on to always be there and functioning – including the trash collection that stops by your house once-a-week to pick up your garbage and trash.

How are People Going to Dispose their Trash, Garbage ...
