

The Permaculture Handbook Garden Farming

Forest gardening is a low-maintenance sustainable plant-based food production and agroforestry system based on woodland ecosystems, incorporating fruit and nut trees, shrubs, herbs, vines and perennial vegetables which have yields directly useful to humans.

Forest gardening - Wikipedia

A food forest is a productive landscape developed around a mix of trees and perennials. Rooted in permaculture principles, this integrated approach to gardening incorporates a variety of plants such as fruit and nut trees, shrubs, vines, and perennial herbs and vegetables.

Inspired by her own training in permaculture, Linda Woodrow has devised a totally integrated organic system of gardening that combines science with common sense. In The Permaculture Home Garden she draws us into a warmly welcoming household where everyone shares the planting, helps to tend the hens

The Permaculture Home Garden by Linda Woodrow ...

Biointensive agriculture is an organic agricultural system that focuses on achieving maximum yields from a minimum area of land, while simultaneously increasing biodiversity and sustaining the fertility of the soil. The goal of the method is long term sustainability on a closed system basis.

CREATE A FOOD GARDEN WITH AUSTRALIAN PLANTS. Designing an edible garden is not that different to designing any type of garden; you need to give thought to what will grow in your area and climatic zone, which plants you will incorporate into the garden and how to arrange these plants for aesthetic value.

Permakultur ist ein Konzept, das auf die Schaffung von dauerhaft funktionierenden nachhaltigen und naturnahen Kreisläufen zielt. Ursprünglich für die Landwirtschaft entwickelt, ist sie inzwischen ein Denkprinzip, das auch Bereiche wie Energieversorgung, Landschaftsplanung und die Gestaltung sozialer Infrastrukturen umfasst.

Using human urine can help us work toward a closed-loop fertility system. While not a plant-based technique per se, using their own urine is a way that veganic gardeners can cycle back the nutrients from the foods they consume, while also diverting their urine from the water system where it acts as a pollutant.

Ten years ago, Dan and I bought the property that has become our homestead. A decade seems like a true mile marker and a good time to take a look at then and now.

5 Acres & A Dream

A blog (short for web log) is a kind of online journal. There are lots of different kinds of blogs on the internet, and garden blogs are just a small fraction of the blogs out there.

Garden Blog Directory - Cold Climate Gardening

I come through this garden at least every month with some kind of organic fertilizer application, just to make sure the plants have access to the beneficial microorganisms and nutrients they need.
